

What is LEGO SERIOUS PLAY®™

Learn more about LEGO Serious Play:

How do you know when LEGO SERIOUS PLAY®™ is relevant for your organisational challenge?

LEGO SERIOUS PLAY®™ is based on the beliefs that:

- Leaders do not have all the answers – their success is based on hearing all the voices in the room
- People naturally want to contribute – they want to be part of something bigger and want to take ownership
- Allowing each member to contribute and to speak out results in a more sustainable organisation
- Teams often work sub-optimally as there is a wealth of knowledge and insight that is untapped
